# Donald Huisingh

Professor Huisingh is the founder and Editor-in-Chief of the Journal of Cleaner Production, an Elsevier Science Publication and co-founder and a member of the editorial board of “The International Journal of Sustainability in Higher Education,” an Emerald Press Publication. Professor Huisingh is the author or co-author of more than 350 professional publications, books, audio-video productions and simulations.

Professor Huisingh is skilled in interdisciplinary education and holistic approaches to defining and solving society's problems so that effective and equitable progress can be made toward Sustainable Societies. He is skilled in course and curriculum development and curriculum evaluation in topics ranging from Sustainable Development and regional sustainable development to more detailed issues such as: toxic use reduction, life cycle thinking, industrial ecology, pollution prevention, eco-efficiency and eco-effectivity.

He taught and did research at North Carolina State University in Raleigh North Carolina for 23 years and then moved to Europe where he has taught at Erasmus University in The Netherlands and in Lund University, in Lund Sweden since 1987. He has been guest lecturer in more than 60 other universities and has worked on helping to implement Cleaner Production in more than 300 companies and organisations. Presently he teaches part-time at the following institutions: the University of TN in Knoxville, TN, Lund University in Sweden, Erasmus University in The Netherlands and at the Central European University in Budapest, Hungary.
